

## General News from Wenhaston School

What an exciting time our children are having this term!

The swimming pool is now in full use and the weather has been quite kind so we are able to go in most days. The children from Reception to Year 4 are all having a great time enjoying this wonderful facility.

The children who are in the Gardening Club have worked so hard in all weathers to provide some of the food our children in school are lucky enough to eat. Beetroot, potatoes, beans, salad items, onions are all foods which have been on the menu so far and there are lots more to look forward to. Well done to them.

Our Eco Club children are busy (using their own lunchtimes) preparing exciting things for their event in school on July 10<sup>th</sup> which we are all looking forward to.

After school club remains busy on a Tuesday, Wednesday and Thursday night. There are always plenty of great things going on which the children love. So far they have decorated t-shirts, baked cakes, made fruit kebabs and smoothies. If you haven't been along to try it before, why not give it a go? See Jayne, Charlotte, Mrs. Cassels or Mrs. Leeming for more details.

Mr. Rutterford came into school for a whole day helping KS2 children to make items out of clay. It was a brilliant day and they had a great time. All of the items have now gone to be fired and we are looking forward to seeing the end results.

We have had a visit from the Middle School Orchestra which was wonderful. The children enjoyed trying out many new instruments and had a really fun afternoon.

Erin's Dance Class - In recent weeks very few children have attended the after school dance club so Erin has decided to stop the classes until September. If we have sufficient interest in the Autumn, Erin is prepared to give it another go. Our thanks go to her for all her help.

There will be further news shortly about the other end of term events taking place at Wenhaston Primary before the end of term.
